- Område for rammelokalplan

Område for byggeretsgivende lokalplan
- Vej og byrum anlagt

Byggeri ibrugtaget

Byggefelt under opførelse
- Eksisterende grønt

Grønne områder anlægges

Terrænreguleringer inden beplantning

Endelig beplantning efter endt byggeri
- The site plan illustrates the layout of Holbæk Have Etape 2. It features several building footprints labeled HH1 through HH15, along with specific project names like 'Medio 2025', 'Ultimo 2025', and 'Primo 2027'. The plan is color-coded according to the legend: pink for roads and public spaces, blue for existing buildings, orange for buildings under construction, light green for existing greenery, and various shades of green for new green spaces and terrain adjustments. A yellow dashed line outlines the area covered by the local plan. Black arrows indicate road connections, and red arrows indicate path connections. The plan also shows existing and planned greenery, including trees and grass areas. The surrounding context includes Godthaabsvej to the west and Holbæk Have to the south.
